Technologies

Proficient: JavaScript (ES6), Node, Express, React, Redux, Sequelize, Git, C++, Socket.io

Familiar: PostgreSQL, jQuery, Bluebird, Passport , Mocha, Chai, Jasmine, SQL, HTML5, CSS3

Skills

- Experienced project manager
- UX/UI design

- Passionate learner
- Effective communicator and group leader

Projects

StackQuest - https://github.com/FinalStackQuest/StackQuest

- An in-browser and open world multiplayer game based off of Mozilla's BrowserQuest. The backend uses Web Sockets to update the map in real time for all users. The front end leverages React, Redux, and Phaser to create an interactive and enjoyable feel.

Partnerize - https://github.com/gabrielwr/climbingPartner

- A React Native mobile application that allows users to connect with rock climbing partners nearby. Uses the Geolocation API, Sockets, and Firebase to update users in real time and allow for seamless chat between users.

Work Experience

TEACHING FELLOW & SOFTWARE ENGINEER, FULLSTACK ACADEMY; NYC, NY — JUNE 2017-PRESENT
I worked in an Agile engineering team that maintained and updated Fullstack's internal software platform. I mentored, debugged, and taught concepts and best practices to over 40 students.

SALES SPECIALIST, REI; BOSTON, MA — JUNE 2015-DECEMBER 2015
I was recognized by the store manager as a top salesman of REI cooperative memberships for the Boston store. I helped inform customers about the appropriate gear for their outdoor needs.

EMERGENCY MEDICAL TECHNICIAN, HAMPSHIRE COLLEGE EMS; AMHERST, MA — 2011-2014
I worked as part of a 16 member team of certified EMTs to provide emergency medical support to the Hampshire College community. I worked multiple twelve hour on-call shifts a week and facilitated group discussions focused on improving our services and our quality of care.

Education

Fullstack Academy of Code, New York, NY — May, 2017

Oregon State University, Corvallis, OR — Bachelor of Science, Expected 2018

Hampshire College, Amherst, MA — Bachelor of Arts, 2014
